OUR PARTNERS

We only work with the best. Collaboration at the highest standard. We work exclusively with world-class manufacturers of electrical and mechanical components to ensure superior quality and performance. At the foundation of our work is a clear purpose: *Keeping you connected, no matter the challenge.*

SERVICES

Our advanced **neoprene** blend features anti-biofouling properties for extended **subsea** life, high insulation resistance and excellent oil and chemical resistance - making it the ideal choice for durable overmoulded **subsea** cables.

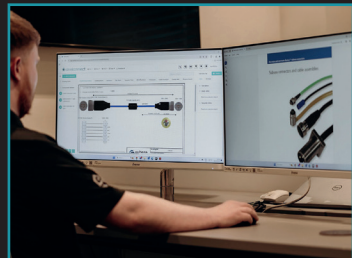

SUBSEA CONNECT

Our custom-designed **moulding** and **termination** facility, supported by extensive stock of **polyurethane** and **neoprene** cables, enables fast turnaround to meet customer demands.

A **digital diagramming tool**, purpose-built for creating cable assemblies and electrical wiring schematics for **subsea** and **marine** applications.
